CRIME IN KENTUCKY

1988 REPORT

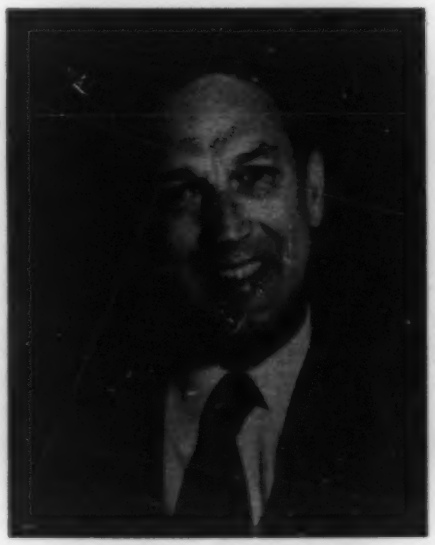
COVER ILLUSTRATION
1988 CRIME IN KENTUCKY

Behind every crime statistic there is a victim. The 1988 CRIME IN KENTUCKY cover focuses our attention on the victims of crime. The "target" of our efforts to reduce crime is appropriately centered on alleviating the plight, grief, and frustration of crime victims.

The cover illustration highlights the victim, always present, in the statistical reporting of crime.

GOVERNOR WALLACE G. WILKINSON
CAPITOL
FRANKFORT, KENTUCKY 40601

My Fellow Kentuckians:



This 1988 *"Crime in Kentucky"* report offers a statewide overview of crime in our Commonwealth. The incidence of crime has a negative effect on the quality of life for our citizens and those who visit Kentucky. Therefore, the information contained in this report is of vital importance to all of us.

Analysis of crime trends and patterns are key indicators of what direction we must take to improve the quality of life in Kentucky. Crime levels and trends during 1988 are intolerably high. Hopefully, police, courts, and corrections professionals can use this information to develop effective strategies to combat crime in the Commonwealth.

I urge our law enforcement and courts community to continue to improve the quality and accuracy of offense and arrest information. I also urge our citizenry to continue to cooperate in reporting crimes and in applying effective crime prevention strategies.

Together, I feel that we can make our Commonwealth safe for all Kentuckians. A unified effort to combat crime will give us a competitive edge against criminals and improve the quality of life for all Kentuckians.

Sincerely,

Wallace G. Wilkinson

The Honorable Wallace G. Wilkinson
Governor of Kentucky
The Capitol
Frankfort, Kentucky 40601

Dear Governor Wilkinson:

Pursuant to Chapter 17 of the Kentucky Revised Statutes, I am pleased to submit this 19th annual *"Crime in Kentucky"* report.

I would like to acknowledge the cooperation and contributions of all law enforcement agencies without whose compliance with Chapter 17 these statistics could not have been compiled.

We will continue to meet our responsibilities in improving the quality, accuracy, and timeliness of the Commonwealth's Uniform Crime Reporting System.

Respectfully submitted,

W. Michael Troop

DEDICATION

This 1988 Crime in Kentucky Report
is fittingly dedicated to

TROOPER JOHNNY EDRINGTON
KENTUCKY STATE POLICE
&
DEPUTY SHERIFF JOSEPH ANGELUCCI
FAYETTE COUNTY SHERIFF'S OFFICE

WHO PAID THE SUPREME SACRIFICE OF THEIR LIVES
ON BEHALF OF THE CITIZENS OF THE COMMONWEALTH.

Trooper Johnny E. Edrington began his career as a KSP Trooper in 1985 (KSP Academy Class #63). He had been assigned to the London Post for three years prior to his death. In 1987, Trooper Edrington received the coveted KSP Meritorious Service Award in recognition of courage displayed in pursuing and confronting an armed and dangerous felon who had already killed a police officer in Ohio.

Shortly before midnight, December 20, 1988, Trooper Edrington made a traffic stop on KY 80 outside of London, Ky. Investigation revealed that he was shot in the head by his own weapon. He was 34 years of age.

Trooper Edrington was laid to rest on Christmas Eve in his hometown of Campbellsville. He is survived by his loving wife, Diane, a newborn daughter, Johna, his mother and father, Jack and Patty Edrington, and three sisters.

Deputy Joseph M. Angelucci began his law enforcement career with the Fayette County Sheriff's office on June 3, 1985. Concurrent with carrying out his duties as a deputy sheriff, he was also working towards a degree at the University of Kentucky, with an ultimate goal of pursuing a career in law. He was a loyal, conscientious officer and a loving and caring individual, well known and respected in the Lexington community.

While executing a court order on a wanted subject, Deputy Angelucci was shot by the suspect and critically wounded. Multiple complications hindered his ability to stabilize. He died on Thanksgiving Eve, November 28, 1988, at the age of 24.

Deputy Sheriff Angelucci is survived by his father, Judge Armand Angelucci, his mother, Mrs. Joyce Angelucci, and a younger brother, Mr. Armand Angelucci, Jr.

KENTUCKY'S

CRIME REPORTING SYSTEM

KENTUCKY'S CRIME REPORTING SYSTEM

WHAT IS THE KENTUCKY CRIME REPORTING SYSTEM?

Kentucky's Crime Reporting System collects, compiles, classifies, analyzes, and reports statewide and local area offense and arrest data. Chapter 17 of the Kentucky Revised Statutes, as amended in 1976, requires that all law enforcement agencies file crime reports and vests the authority and responsibility for maintaining the system with the Commissioner of the Kentucky State Police.

WHY IS THE CRIME REPORTING SYSTEM IMPORTANT?

Accurate and timely crime data are vitally important tools for law enforcement planning, operations, and management. The Governor and other public officials entrusted with responsibility for the safety and well-being of citizens as well as the overall quality of life in the Commonwealth need such information, as do citizens who are the potential victims of crime; researchers engaged in the study of crime and its effects are also entitled to an accurate assessment of crime.

In order to maintain uniformity of data nationwide, standardized definitions of offenses reported through the crime reporting system have been adopted in accord with national guidelines and state directives derived from House Bill 774 enacted by the Kentucky General Assembly in 1986.

WHAT ARE THE IMPORTANT CHANGES IN KENTUCKY'S REPORTING SYSTEM?

As of July 1, 1987, Kentucky changed from a "summary" based to an "incident" based reporting system. In place of monthly summary UCR reports, each agency was required to submit information regarding each felony and serious misdemeanor within ten (10) days. The result of this change is a more accurate and detailed database from which a more comprehensive analysis of crime and arrest statistics can be made.

This incident based reporting system became fully automated during 1987, replacing the antiquated manual method of tabulating monthly UCR reports at the local level. Existing computers were utilized in those larger agencies with automated systems in place. Necessary software conversions were provided in order to make these existing systems compatible with the new centralized system. Agencies without previous computer capability were furnished new hardware and software, bringing the total number of agencies with computer capability to seventy-two. The more than two hundred police and sheriffs departments without computers forward Uniform Offense Reports on each incident to the State Police Records Section for entry into the centralized database.

Arrest information is derived from Kentucky's Uniform Citation, which are also entered into the centralized database. In order to capture disposition data, all citations flow through the respective courts, as required by House Bill 774.

It is important to recognize that these important changes in Kentucky's crime reporting system could not have been realized without the willing cooperation of the state, local, and criminal justice agencies involved in reporting crime and arrest information. A major adjustment on the part of all sworn police officers, police records clerks, courts personnel, detention and corrections staff, and many others, was necessary in order to put this new system into operation.

STATE OFFENSE DATA

The total number of Part I Crimes reported by law enforcement agencies in Kentucky during 1987 and 1988 are shown in the right-hand column.

It should be noted that these overall statistics reflect only offenses reported to or known by the police.

The reader is cautioned against drawing conclusions from a comparison of previous year and current year statistics for Part I Crimes for the following reasons: 1) Part I offenses are not inclusive of all offenses reported to the police; 2) Increases or decreases in the number of crimes reported can be attributable to a variety of factors, including methods of reporting and counting on the part of the law enforcement agencies; 3) differing levels of citizen awareness to their responsibilities to report crime.

Part 1 Crimes	OFF. REPORTED		%	%
	COMPARISON		CHANGE	DIST.
CLASSIFICATION	1987	1988	88/87	1988

AUTO THEFT	7,259	7,254	-0.06	7.28
TOTAL	122,718	99,526	-18.89	

NOTE: Kentucky is presently undergoing changes in crime reporting procedures in order to meet federal, state, and local needs. Some adjustments are already in effect. While these adjustments improve the accuracy of crime reporting, comparison of 1988 and previous year data should be made with caution.

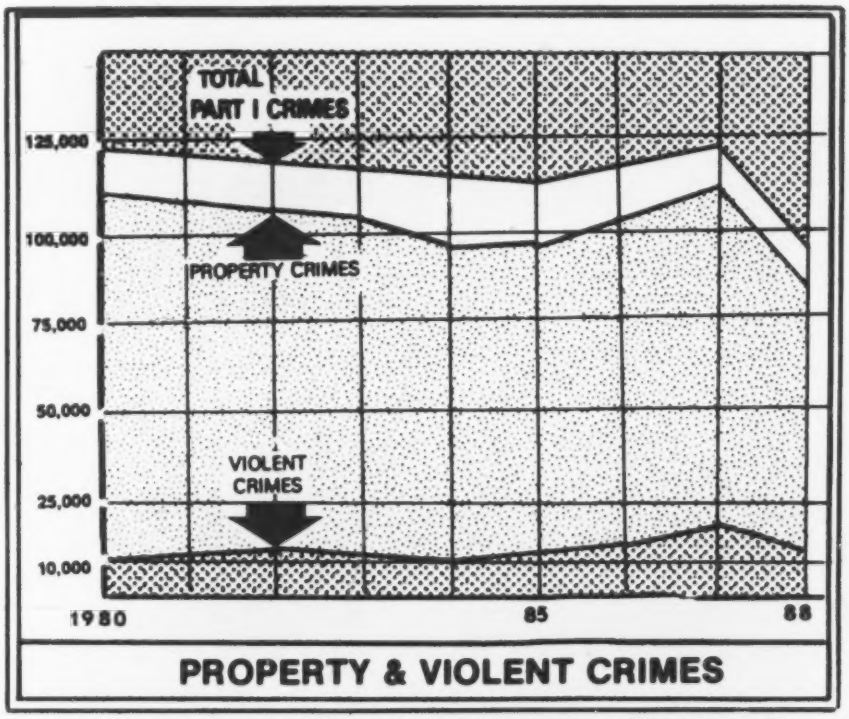
A crime rate, or "crime index," is used nationally and is derived from the following formula: population divided by 100,000 = X; number of offenses divided by X = "crime index." Kentucky's "crime index" for 1988, based on current estimated population of 3.7 million is shown below.

Kentucky "crime index," 1988 = 2667.2

A SERIOUS CRIME OCCURS IN KENTUCKY every 5 MINUTES

CRIME TRENDS: Annual fluctuations in the number of reported crimes can be attributed to a variety of factors other than real changes in actual crime. Such factors notwithstanding, the right-hand chart illustrates "patterns" of reported PART I Crimes between 1975 and 1988. The relationship between Property vs. Violent crimes is also depicted in the right-hand chart.

The lower left and right charts plot each Violent and Property offense, showing fluctuations between 1975 and 1988.



PROPERTY & VIOLENT CRIMES

NOTE: The significant declines in overall offenses as well as in specific Part I Crimes are not necessarily the result of real crime fluctuations. A partial explanation of these declines may be due to the fact that some law enforcement agencies which reported in previous years did not do so in 1988.

CLEARANCE RATES

Clearance rates are depicted in the chart below. Clearance rates are the percentage of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and assault are attributable to the fact that the perpetrator is known, recognizable, or in some way usually associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

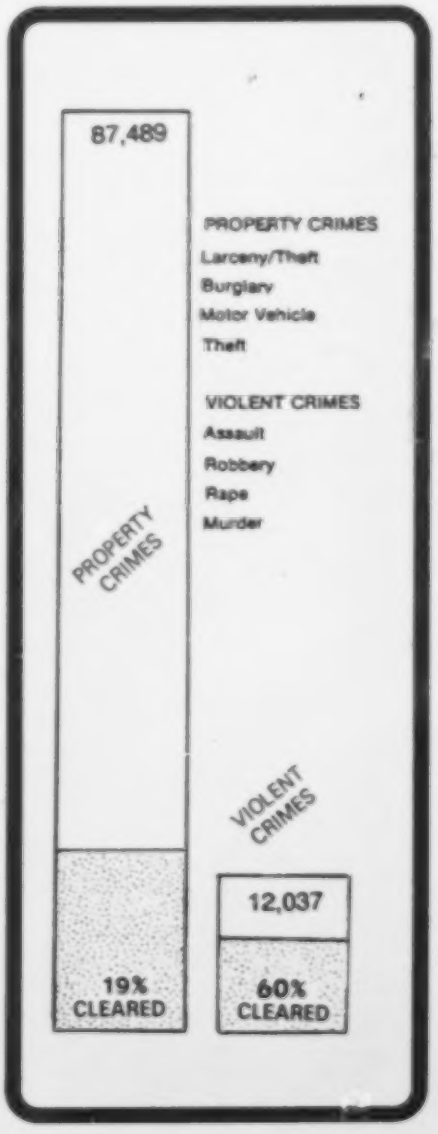
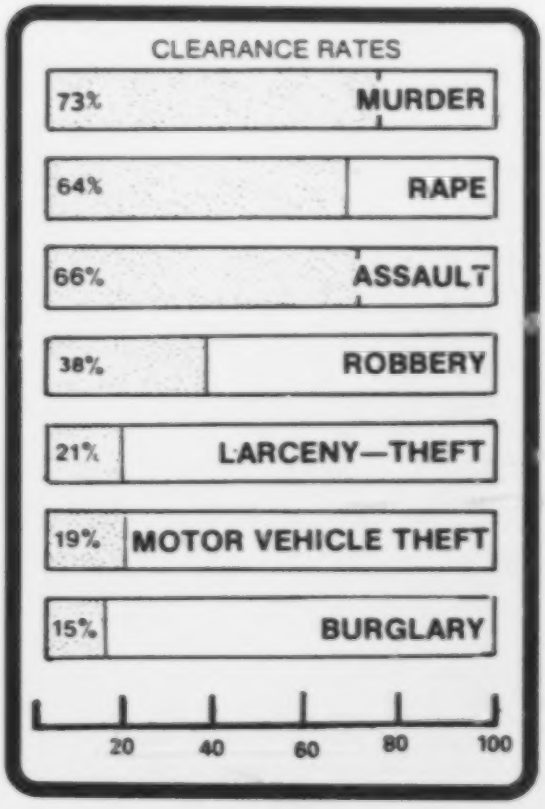
The right-hand chart depicts the relative clearance rates of property versus violent Part I Crimes.





The chart above depicts relative clearance rates for each of the seven Part I Crimes.

MURDER IN KENTUCKY
1988

DEFINITION

Murder is the unlawful killing of a human being with malice of aforethought. All homicides due to a fight, argument, quarrel, assault, or commission of another crime are included. Offense data for murder include only those offenses known to the police irrespective of arrest, arraignment, and conviction date. Traffic deaths due to negligence are not included under murder but are counted under manslaughter by negligence. Suicides, accidental deaths, and justifiable homicides are also excluded from the murder category.

NUMBER REPORTED	CLEARANCES	RATE
304	230	76%

Murder is the most serious of all PART I Crimes. Clearance rate for Murder is the highest of all Part I Crimes. Although some murders are difficult to solve, the intensity of police investigations together with solvability factors account for the high clearance rate for Murder.

As depicted in the map (below) the number of murders reported in Jefferson County far outnumbers those reported in other counties.

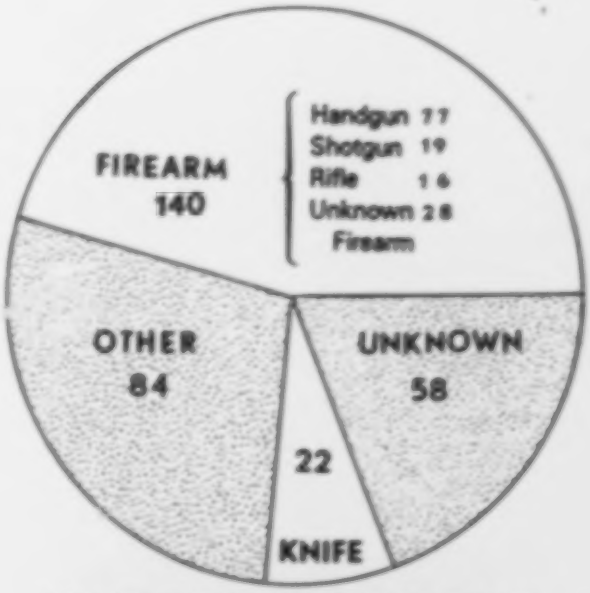
MURDER WEAPONS AND CIRCUMSTANCES

MURDER WEAPONS:

The type murder weapon and/or incidental cause of death in the homicides reported in Kentucky during 1988 are shown below and in the right-hand chart.

46% of the victims were killed with a firearm; 7.2% were killed with a knife or other sharp cutting instrument. In 49% of the murders (unknown category), the law enforcement agency did not specify the weapon used; or it was not known at the time the offense report was submitted.

It is to be noted that 27 victims were included (1988 Carrollton bus crash) as a result of DUI-homicide charges having been filed.



MURDER WEAPONS

Other weapons and/or incidental causes of death include:

1 Beaten to death with hands, fist, feet
1 Raped and died of related injuries
5 By hanging or strangulation
4 Child battering
1 Submersion (drowning)

1 Pushed from a high place
8 Other specified means
5 Late effects of injuries sustained in aggravated assault
2 Police officers shot and killed in the line of duty.

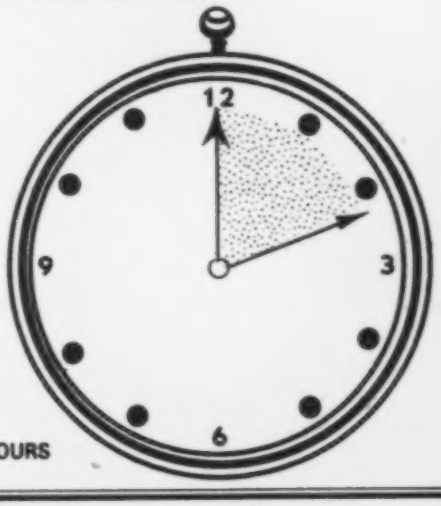
RAPE IN KENTUCKY

DEFINITION

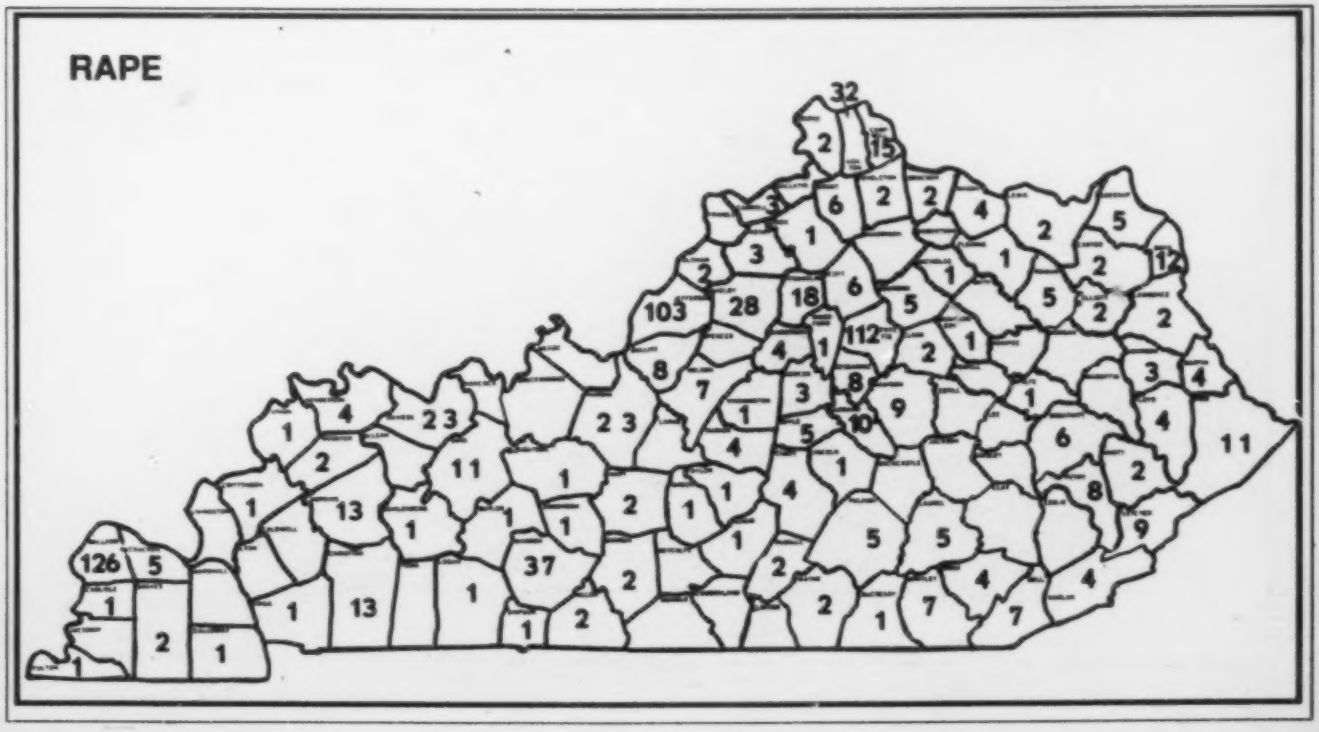
Rape is defined as the carnal knowledge of a person forcibly and against the person's will. Only "forcible" rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are statutory rapes (rape of a female victim who is "under age" when no force is used), carnal abuse, and other sex offenses.

NUMBER REPORTED	CLEARANCES	RATE
809	518	64%

The Clearance Rate is high when compared with property and other offenses. One explanation for the many rapes cleared is the fact that the victim and the offender are frequently acquaintances or even related.



1 RAPE every 11 HOURS



ROBBERY IN KENTUCKY

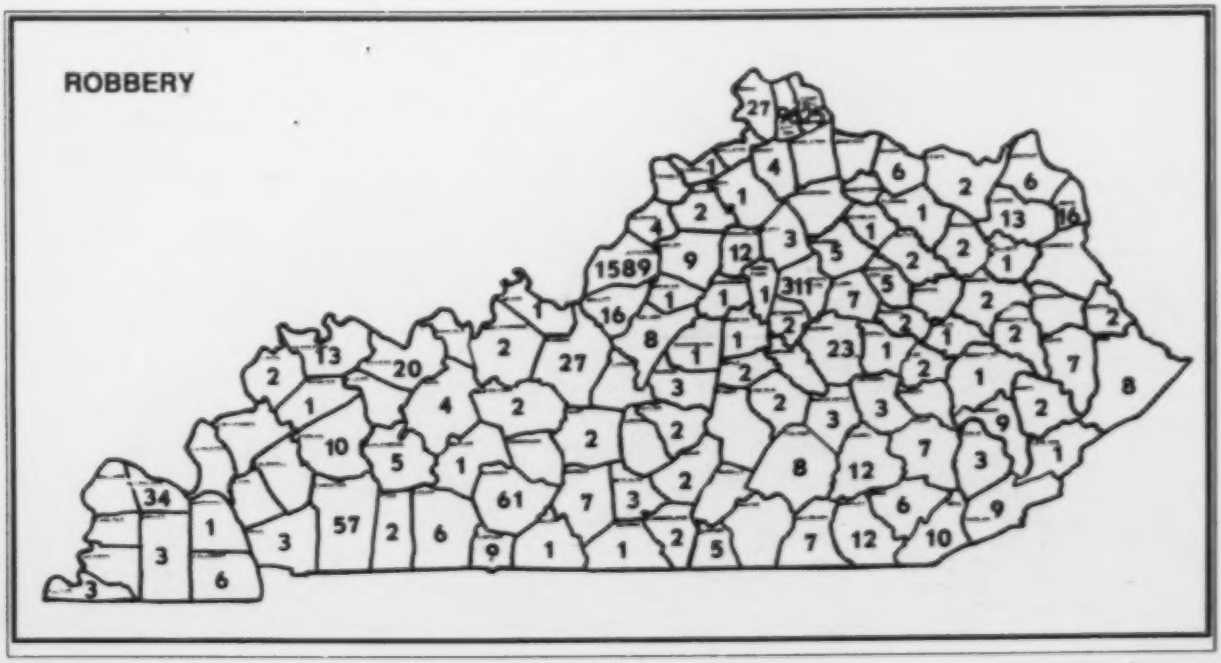
DEFINITION

Robbery is the felonious and forcible taking of the property of another against his will by force or the threat of force or violence and/or by putting the victim in fear. All assaults and attempts to rob are included. Robberies are reported in two general categories: armed (any weapon or threatening object is used) and strong-arm (to include muggings and similar offenses where no weapon is used but strong-arm tactics are employed).

NUMBER REPORTED	CLEARANCES	RATE
2,630	1,012	38%

Robbery is considered to be a serious crime because the element of fear and personal confrontation with a weapon or strong-arm tactic is always present. The clearance rate for robbery is slightly higher than for other crimes motivated by the theft of property, but low by comparison with Murder, Assault, and Rape - in which the element of personal confrontation is also present. This is attributable to the fact that the perpetrator usually conceals his personal identity from the victim.

1 ROBBERY every 3 HOURS



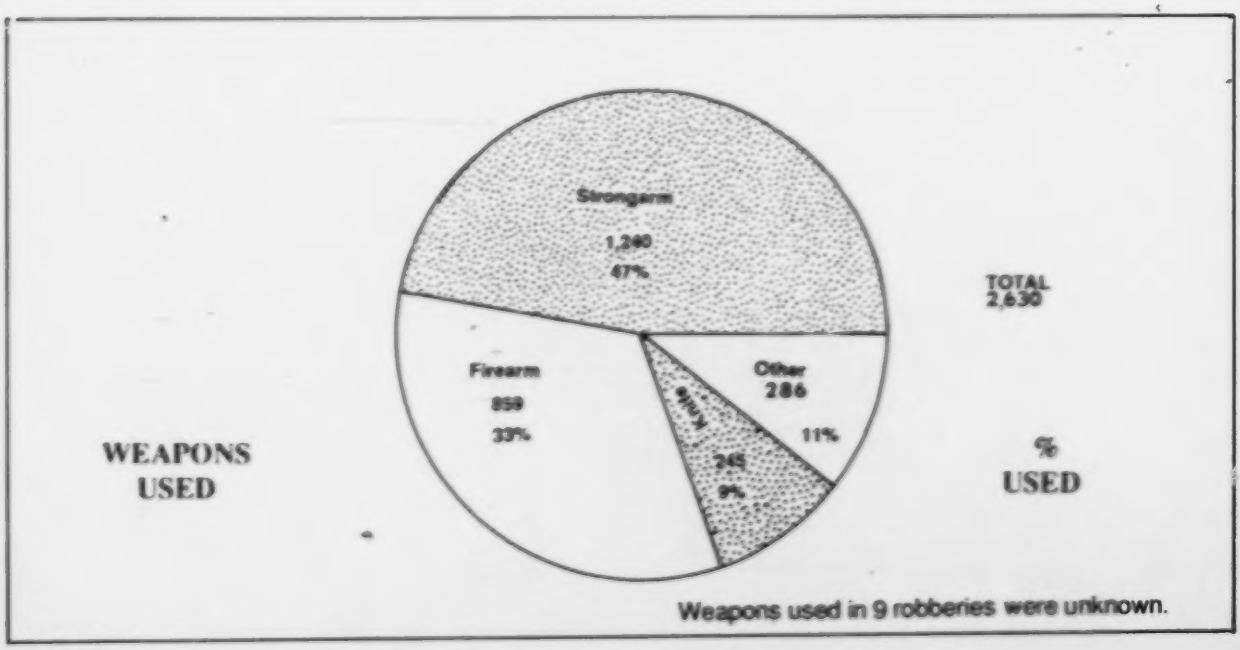
ROBBERY - PLACE OF OCCURRENCE

Classification	Number of Offenses	Percent of Distribution	Total Value	Average Value
Highway	785	30%	$302,727	$386
Commercial House	83	3%	$25,766	$310
Gas-Service Station	138	5%	$30,464	$221
Chain Store	334	13%	$166,877	$500
Residence	251	10%	$238,792	$951
Bank	30	1%	$291,886	$9,730
Miscellaneous	1,009	38%	$180,291	$180
Total for Kentucky	2,630	100%	$1,236,803	$472

Robbery classifications denote the type robbery reported. Highway robberies occur on any roadway, whether it be a highway, country road, or city street. Commercial house robberies are those perpetrated in hotels, motels, restaurants, and like businesses. Chain store robberies include "convenient" type stores, groceries, and like businesses. Residences include homes and apartments and other dwellings.

WEAPON USED IN ROBBERY

Weapons used in the perpetration of a robbery can be a gun, knife, club, stick, or any force (such as hands) presumed to threaten the victim with injury or death. The percentage of various weapons used in 1988 robberies are shown in the chart.



Weapons used in 9 robberies were unknown.

AGGRAVATED ASSAULT - 1988

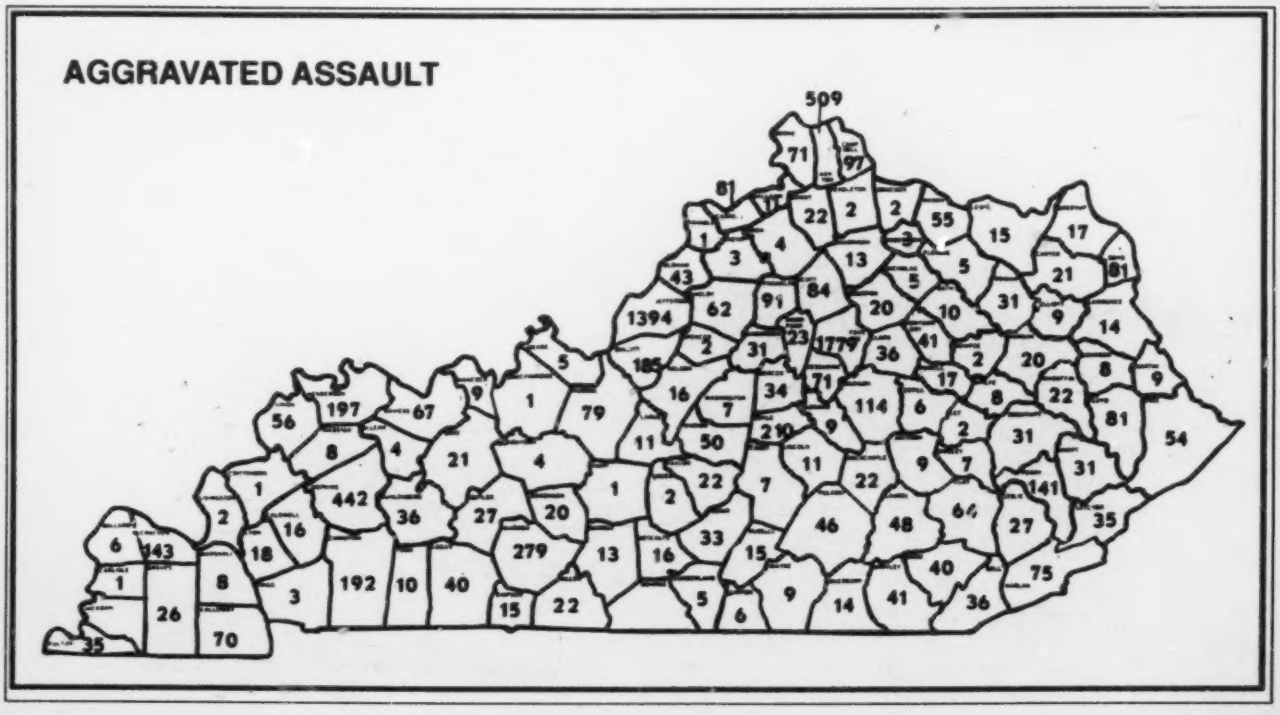
DEFINITION

Assault in the unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury results from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all attempts to assault when serious injury would have been likely are included. Excluded from the Part I Crime of "aggravated assault" are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury. These "simple assaults" are counted as Part II Crimes.

NUMBER REPORTED	CLEARANCES	RATE
8,294	5,488	66%

Included in Aggravated Assaults reported during 1988 are those attacks resulting in serious or "aggravated" bodily injury as well as those in which a dangerous weapon was used but no serious injury resulted. Because the victim is frequently related to or an acquaintance of the perpetrator, the clearance rate for Aggravated Assault is high.

1 AGGRAVATED ASSAULT every HOUR



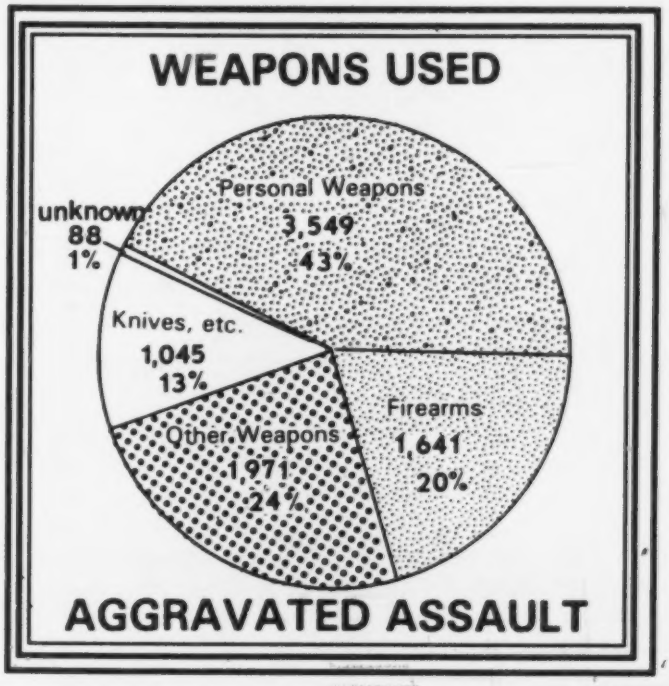
WEAPONS USED IN AGGRAVATED ASSAULT

The category of Aggravated Assault includes the following offenses: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; mayhem, maiming, assault with explosives: and all attempts to commit the foregoing offenses.

It should be noted that it is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

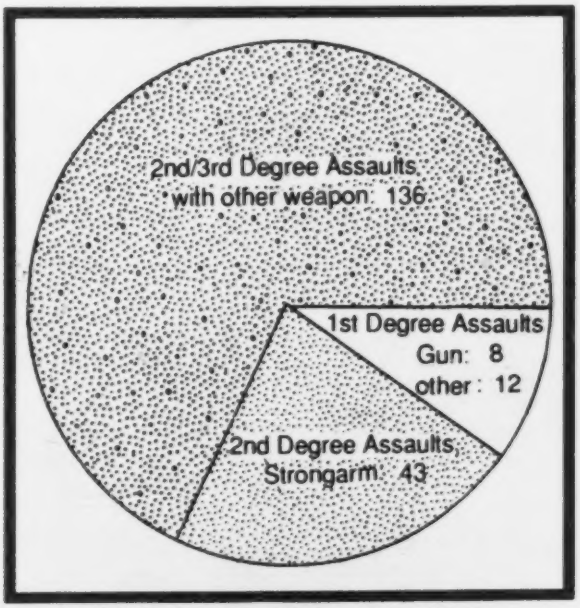
Weapons used in Aggravated Assault are shown in the right-hand map.

It should be noted that the Aggravated Assaults reported during 1988 do not include "other," or "simple" assaults which include those assaults which do not involve the use of a dangerous weapon and/or from which no serious injury resulted.



217 Assaults on Police Officers were reported during 1988. This does not include all assaults on officers because 8 of the larger agencies were unable to provide the information.

An analysis of 199 of the 1988 assaults on police officers is shown on the right-hand chart.



ASSAULTS ON POLICE OFFICERS
where known

BURGLARY IN KENTUCKY - 1988

DEFINITION

Burglary is the unlawful entry of a structure with the intent to steal or commit another felony, including entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained). Thefts from premises with "open access" are not included. These thefts would be counted as larcenies.

NUMBER REPORTED	CLEARANCES	RATE
25,449	3,848	15%

Included in the offense of Burglary are all unlawful entries into a home, business, or other structure whether the perpetrator entered by force, through an unlocked door, or concealment. Forced "attempts" are also included irrespective of whether entry was gained or not. Thefts from premises with open access (e.g. a store during business hours) are not included. Such thefts are counted as "Larceny-Thefts."

As shown in the map below, Burglary is a repeated occurrence in most of Kentucky counties.

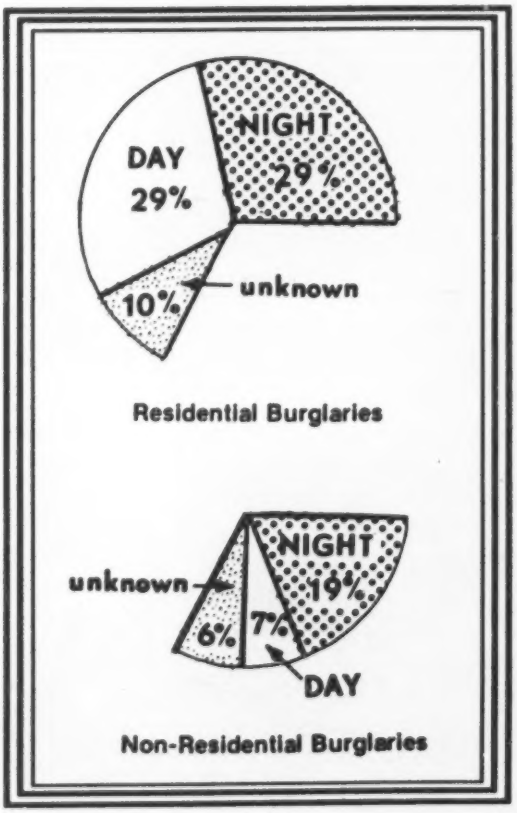
TOTAL FOR KENTUCKY	25,214	100	$33,291,420	1,320

The number of burglaries classified by residential and non-residential burglaries, together with day vs. night occurrences, and the value of property losses reported, are shown in the above chart.

Note: The classification was not reported for 235 offenses which are not included in the above table.

The reported value of all property stolen in 1988 burglaries together with average loss for residential burglaries and non-residential burglaries.

Burglary is a crime of "opportunity" and can be predicted to occur most frequently when the victim is not at home or when business premises ae not occupied.



LARCENY IN KENTUCKY - 1988

DEFINITION

Larceny, or Larceny-Theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legitimately. The theft of automobiles, trucks, and other vehicles are classified separately. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny. All larcenies, irrespective of the value of property stolen, are included.

NUMBER REPORTED	CLEARANCES	RATE
54,786	11,386	21%

54,263 Larcenies were reported during 1988. Larceny is the most frequently occurring PART I Crime. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low.

Most Kentucky counties reported substantial incidences of Larceny, as shown in the map below.

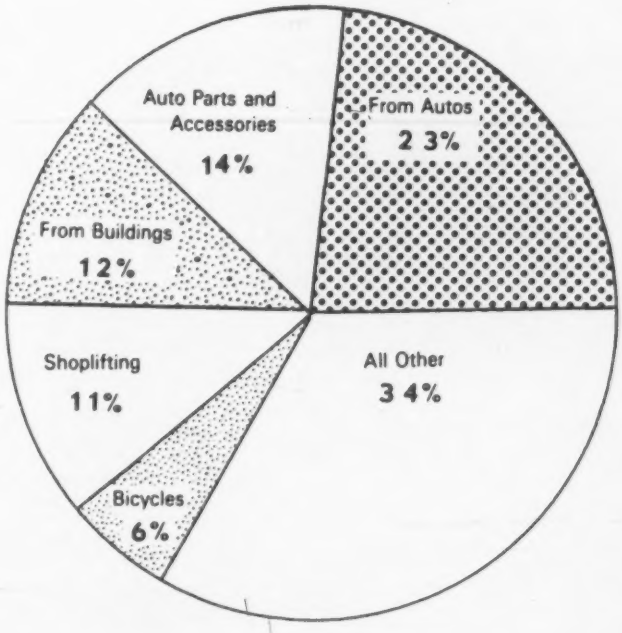
The total reported values of property stolen in larcenies reported during 1988 are shown in the above table. The type of larcenies reported in Kentucky can be seen by the number of offenses reported in each classification and the total value of property stolen.

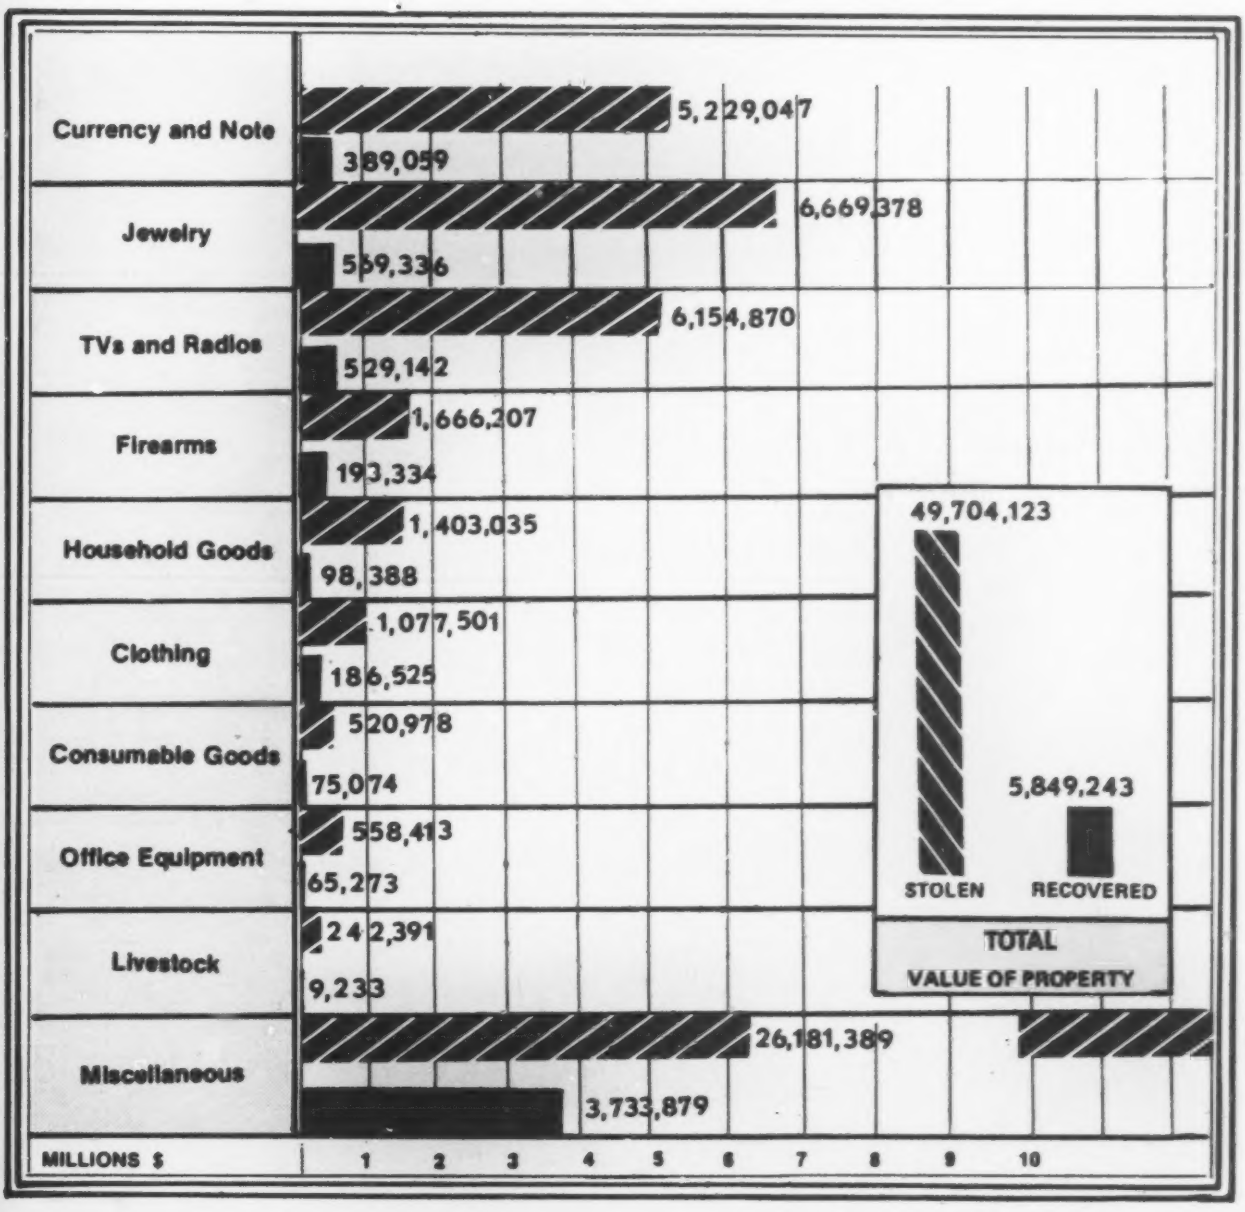
A classification was not available for 523 offenses reported above.

The right-hand chart shows the percentage of occurrence for five major types of larceny.



VALUE OF PROPERTY STOLEN/RECOVERED

The estimated value of currency, notes, and other property reported stolen in Kentucky from larcenies, burglaries, murders, and rapes are shown in the table below. The figures do not include the reported values of motor vehicles stolen during the year.



AUTO THEFT IN KENTUCKY - 1988

DEFINITION

Auto Theft includes all thefts and attempted thefts of motor vehicles, including cars, trucks, buses, motorcycles, mopeds, and motor homes. The taking of a vehicle for temporary use when a prior authority has been granted or can be assumed (such as in family situations) would not be classified as an auto theft.

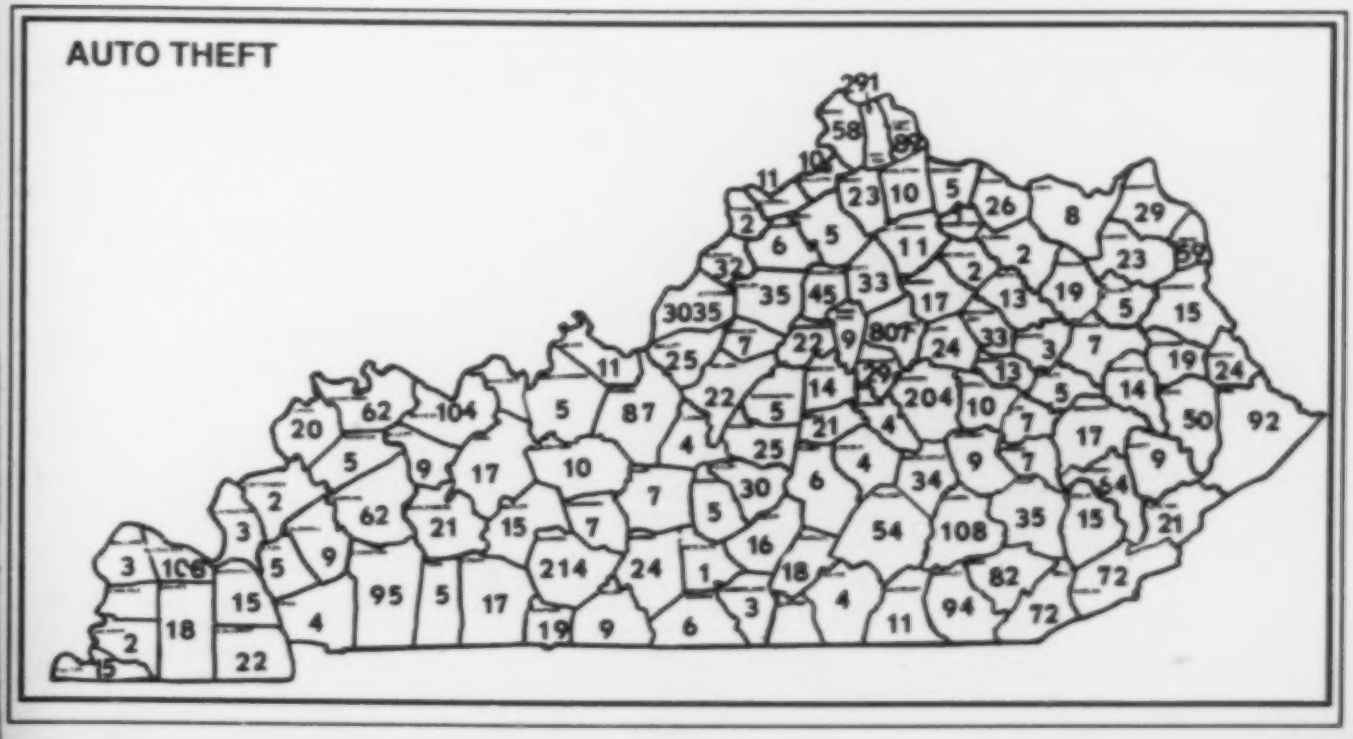
NUMBER REPORTED	CLEARANCES	RATE
7,254	1,379	19%

The theft of motor vehicles is a consistent occurrence in most Kentucky counties.

Motor vehicle thefts include all motorized conveyances which run on land. This would exclude railway cars, boats, and airplanes. Farm equipment, such as tractors, are not included in the "auto theft" classification.

Auto Thefts reported to the police during 1988 are shown for each county in the map below.

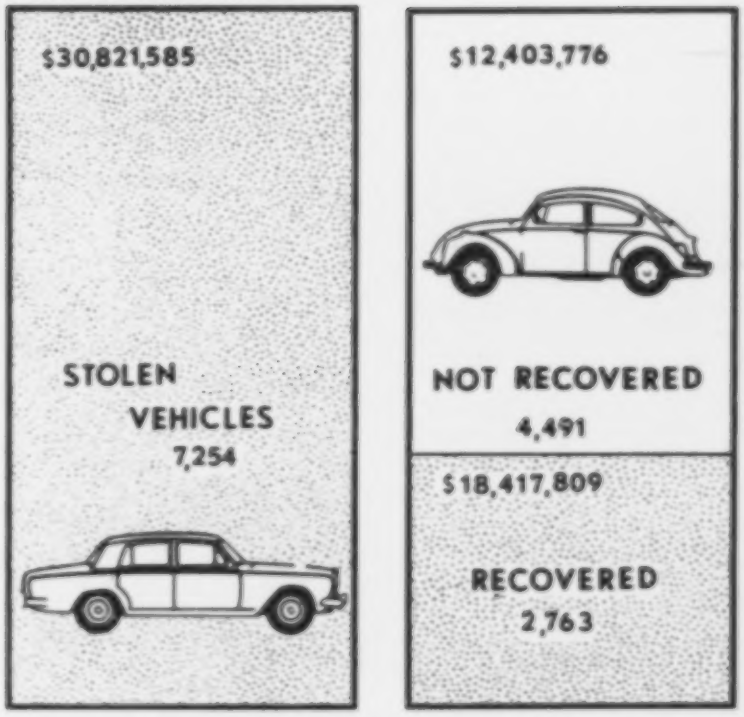
1 AUTO THEFT every HOUR



COST OF AUTO THEFT IN KENTUCKY

The value of vehicles reported stolen during 1988 and vehicles recovered are shown in the right-hand chart.

Amounts do not fully reflect the real cost of auto theft to Kentucky taxpayers because the cost of insurance premiums and other factors such as substitute transportation, lost work days, etc. are not included.

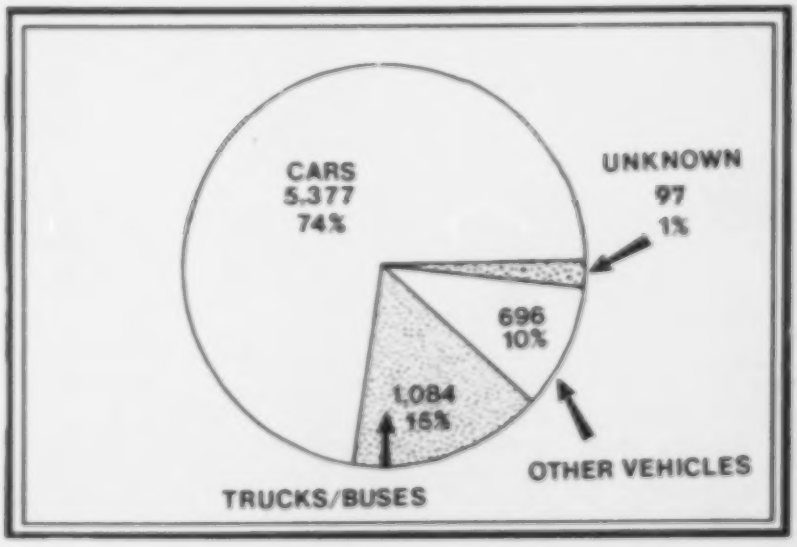


The above figures do not include those vehicles stolen out of town and recovered in Kentucky. Also not included in the above data are farm equipment, bulldozers, airplanes, construction equipment, and motorboats. The value of farm equipment is reported under larceny.

A breakdown, by type vehicle stolen, is shown on the right-hand chart.

CARS include automobiles, taxi cabs and other passenger vehicles.

"Other vehicles" stolen include motorcycles, motor scooters, trailbikes, mopeds, etc.,



ARSON

Definition

Arson includes any willful or malicious burning or attempt to burn (with or without intent to defraud) a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined to have been willfully or maliciously set are classified as arson. Attempts to burn are also included.

NUMBER REPORTED	CLEARANCES	RATE

STATE ARREST TOTAL 1988	**223,638**

Total arrests figures for 1988 show an increase of 51,146 arrests over 1987. This 30% increase is primarily due to improved reporting processes on the part of both law enforcement agencies and the court system. The many agencies with "ICAP" computer hardware are now entering arrest data directly from the agency copy of the Uniform Citation. These agencies are also entering disposition data from the court copy of the citation form. The State Police Records Section continues to enter both agency and court arrest data directly and, as well, enters arrest data and disposition from the court copy of the citation for all felonies and misdemeanors for all local police departments which do not have their own computer. It must be noted that arrest data for these non-computerized agencies are derived solely from the court copy, with the exception of DUI arrests which these agencies report directly to the KSP Records Section.

In summary, because of the new process for capturing arrest data, the increases shown (1988 vs. previous years) should be interpreted in light of the new process.

A comparison of Part I and Part II arrest data is shown in the pie chart below.
